ARCHITECTS & DESIGNERS RESHAPING THE WORLD OF HOSPITALITY

ALBERTO APOSTOLI STUDIO APOSTOLOI | ITALY

Alberto Apostoli, member of the **HoteliersGuild** Academy of Hospitality Arts and **SIRIUSACADEMYAWARD** laureate is an internationally acclaimed architect and designer specializing in wellness and spa architecture. His expertise lies in crafting immersive, sensory-driven spaces that seamlessly integrate nature, sustainability, and well-being. Apostoli's designs are deeply rooted in biophilic principles, emphasizing a harmonious connection between interior spaces and their surrounding environments.

Among his most renowned projects is **Lefay Resorts & Spas** in Italy, a holistic wellness destination that blends innovative sustainable technologies with contemporary luxury. The resort features energy-efficient architecture, geothermal heating, and meticulously designed wellness areas that redefine the spa experience. Apostoli has also contributed to the development of prestigious wellness retreats such as the **Forestis Dolomites**, where natural materials and minimalist aesthetics enhance the meditative ambiance.

Apostoli's influence extends beyond traditional hospitality; he has also been instrumental in developing wellness-driven urban projects and high-end residential spaces. His design for the renowned **Casa Cipriani** in Milano showcases his ability to marry historical elegance with modern spa innovations. This members-only luxury club and hotel embodies bespoke sophistication, with its wellness facilities offering a refined yet deeply restorative experience.

Through his extensive body of work, Apostoli continues to push the boundaries of spa architecture, incorporating hydrotherapy, thermal experiences, and multi-sensory elements that elevate the guest experience. His designs not only enhance physical relaxation but also promote emotional and mental well-being, making him a pioneering force in the evolution of wellness-centered hospitality.
