BIJAN LAUFER

THE ART INTERIOR DESIGN

Pearl

Design by Alberto Apostoli

Inspired by the tiny opaline universe hidden within a rough asymmetric shell, it acts as a reminder of the value connected to the elegance and pleasures of life. The resulting design bases itself on the balance of the two aesthetics in an experience enriched by water. A handmade Olive Grey marble exterior reveals a textured finish, which contrasts a smooth polished interior made from resin and coated with a mother-of-pearl finishing.

Pearl is conceived for both residential and hospitality projects. Existing within a special collection created for wellness, the luxurious tub elevates the relationship between matter, light, water and refined technology.

Blautherm thermostatic columns Ramon Soler

www.rsrmonsoler.com

Shower columns are one of the firm's most eagerly awaited new products, based on design and functionality for your bathroom. With matt black, brushed gold and chrome finishes.

They have a temperature control system that allows the user to choose the exact temperature desired at any given time, without suffering variations in temperature, even if the tap is turned on and off or the flow rate is altered.
