BY RACHNA AGARWAL**

**AN APARTMENT IN AMMAN  
BY MOHAMMED AMMAR**

**ACCESSORIES - ARTS - DOORS - KITCHEN - BATHROOM...**

**PEARL**  
**DESIGN: ALBERTO APOSTOLI**  
**KREOO 2023**

**Pearl**, the creative and evocative bathtub designed by **Alberto Apostoli** for **Kreoo**. Inspired by the tiny opaline universe hidden within a rough asymmetric shell, it acts as a reminder of the value connected to the elegance and pleasures of life. The resulting design bases itself on the balance of the two aesthetics in an experience enriched by water. A handmade *Olive Grey* marble exterior reveals a textured finish, which contrasts a smooth polished interior made from resin and coated with a mother-of-pearl finishing. The internal ergonomic shell exudes the metaphor of the “**pearl**”, realized through the wellness-based detailing of the *Airpool* system,

in which the bottom of the tub is composed of tiny holes pouring a steady stream of air into the liquid mass, moving with a pleasant sensation and massaging the body. Designed with cutting-edge innovation, the border opens up towards the center revealing a panel of control for the machinery dedicated to the emanation of the water jets.

**Pearl** is conceived for both residential and hospitality projects. Existing within a special collection created for wellness, the luxurious tub elevates the relationship between matter, light, water and refined technology. ▯
