The modular **Porro** System bookshelf features visible shelving that can furnish and divide interiors of different styles. The design by Piero Lissoni + CRS Porro and the variety of finishes mean this an extremely versatile system that is perfect for creating bookcases and defining work and study areas.

Both a lamp and a table, Totò is an original floor lamp by **Riflessi** with a useful integrated tray. Designed to be used with armchairs and reading chairs, it is available in a wide range of colours and with ceramic tops with marble-effect finish.

A piece of furniture but also a work of art, the Diana console is produced by **Paola Sorio** in a limited edition of thirty. The base comprises a bronze support in a twisted ring shape, made using the lost wax technique. Its surface displays an intriguing play of reflections. The top is white onyx.

The new Wellness Therapy collection by **Varaschin**, designed by Alberto Apostoli, is based on simple geometries, pure lines and neutral colours. Modular and with personalisable accessories and finishes, it comprises four elements including a bed with rounded shapes that features a luminous metal ring integrated into the side, radiating chromotherapy in the darkness.
